★★★★★ Exactly What I Expected...Top Quality

Reviewed in the United States on January 29, 2024
Size: 300 Each | [Vine Customer Review of Free Product \(What's this? \)](#)

This set of 300 toploaders and penny sleeves from BCW are exactly as advertised. They are industry standard quality and fit my old Topps baseball cards perfectly. The top of the loader has a little split that really makes it easy to slip in your card. That's important. You don't want to manhandle your card getting it into place.

The acrylic and sleeves are perfectly clear. A great product to protect my collection of sports cards. Recommended. Five stars.

Size: 300 Each | **Vine Customer Review of Free Product** ([What's this?](#))

BCW is one of my go-to vendors for bulk purchasing sleeves, toploaders, sheets, etc.. for card collecting.

This is the first time I've seen them offer their combo packs on Amazon, but they've offered them direct, for years now.

Pricing is good, quality is always good. Definitely recommended.

Great top loaders and card sleeves. Good value for price and quantity. The top loaders are also good. Only a few have marks/glue resin on them. My only complaint is that the packing quality is not the best. 4 of my top loader packs only had 24 instead of 25. Not the biggest deal, but kindle annoying. Received 200 sleeves and only 196 top loaders. Curious if this happened to anyone else?

Showed up timely and the product is as I expected. Penny sleeves are thin and the right amount. Top loaders could use a bit more sturdiness, but for the price... Who would complain? 10/10 will buy again!

Great Value! Great Quality!

Reviewed in the United States on January 1, 2023

I absolutely recommend this bundle. I love BCW products - I've been using them for years and have never had an issue with keeping my collection clean and secure. The top loaders are a great value and a great quality - the penny sleeves included in this deal are a must have for slipping your cards in before putting them in a top loader. If you're looking for a great option for protecting your card collection OR mailing them because you've sold them or what to trade by mail - you've found it. I've sent hundreds of cards by mail in these products and haven't had a single one damaged.

Good quality plastic, but a little dark

These are very easy to insert cards into and tap them into their correct place. I wish the plastic view was a little bit clearer. These are great to move your cards straight into from an opened pack to keep them safe from markings!

Good alternative to Ultra Pro Toploaders

Reviewed in the United States on January 5, 2023

Verified Purchase

Wanted toploaders that weren't too expensive to use for about 200 sports cards. I've only used Ultra Pro in the past, but was interested in these due to the price point. I'd recommend them as they do the job well. Will be buying these again in the future.

Pretty much as advertised. Fit standard sized spots cards and come with the soft plastic sleeve as well to help protect from scratching your cards when inserting them in the sleeves. Haven't had any big issues with any of the sleeves.

I was worried when first reading some reviews and not knowing if theyd work for my sports and non sports cards but these are awesome. Exactly what I needed. i have hundreds of cards that are more than commons and wanted to place all in toploaders so for the price it worked out perfect. They came all in one piece none broken or chipped and have been a good fit with ease sliding in to for me. Ill be buying more.

We get these all the time normally good but this last batch was dirty and had shards of plastic inside of the protector defeating the purpose as did scratch a few cards! Dust and debris on inside and outside of these made them useless but as we had opened them we cant send back so now we r trying to clean these so we can at least put less rare cards inside.

Reviewed in the United States on August 15, 2022

I bought these bc of 20pt instead of typical 25pt, hoping for a tighter fit on slim cards. These seem sturdy but honestly fit thicker Topps Chrome cards the best. Cards will slide on slim cards like Dcore 1996. Sounds petty but this year BCW 20ptpack holder is in fact thicker tjan previous years BCW 20pt. Id guess it seems like 27pt instead of tupical 25pt.

Great product that does exactly what I need it to do.

There is some shaved plastic still inside the hard plastic card sleeves but a quick blast of air or simply wiping the inside is fine.

FITS LARGER KPOP CARDS!!

I've been searching for a really long time for toploaders I can use for my kpop merchandise photocards and mini PCS! These are able to fit the larger kpop photocards; just make sure to also use a non-PVC soft sleeve to protect your cards as well because these toploaders are made with PVC, and so your card doesn't move around inside as much.

The cards slip in really easily—the gap at the bottom corners makes it easier to slide the cards in, so double sleeved cards should fit in a little easier in these.

The toploaders weigh 0.5oz each; a lightweight way to add extra protection when mailing/trading cards.

CONDITION UPON ARRIVAL:

A couple toploaders arrived with scratches on them, but that seems to be pretty normal for when you buy a stack of toploaders. The edges don't look super clean, but they did not have dust or debris— more like

Good alternative for Goldbacks

Reviewed in Australia on July 5, 2023

Size: 1 Pack | [Verified Purchase](#)

These sleeves can hold 5 goldbacks securely and are a great alternative to the GB Wallet. Yes they are a little oversized (area-wise) but as a means of storage they're fine. For those wondering how to centre or move them once inserted (and this goes for any card inside a toplayer/rigid sleeve), tap the loader on the on the OPPOSITE end that you want it to 'move'. Learned this trick from MTG cards

Product Description

BCW's 8½x11 topload holder is made with rigid PVC that contains no plasticizers or stearates, like the rest of our toploaders. This high-quality PVC does not migrate, so rest assured it will not harm your important documents. 8½x11 is the size of a standard sheet of paper, so each topload holder has a variety of uses, from photos and prints to work papers. No matter what type of document it is, these toploaders provide maximum protection and visual appeal.

BCW hard plastic card holders with penny sleeves.

What a great buy on a top quality product! If you collect any type of cards then these are a great yet inexpensive investment to keep your collecting protected. I ordered the 100 holder set with the sleeves. Was so happy with the quality I ordered 100 more the next day.

Excellent Card Protectors for Shipping and Storage!

These things are super thick and perfect for shipping and storage, while also being reasonably cheap, even in small bulk quantities, such as, 100 per purchase. Bear in mind that each set of 25 is 1 Box of Rigid/Hard Plastic Sleeves. So, if you order 100, then it'll come with 4 boxes. Luckily, I found me a really cool person who sells them in lots of 100 and includes an addition 100 Soft Sleeves, as well!! Really great deal for a great product by BCW!

Quick easy affordable!

I've bought from quite a few small shops on here for toploaders and sleeves and this one is by far the most reliable for bulk. Every time I order it's here within the week and ready for card storage! And one of the few I've found with not as messed up toploaders

Quality product

If possible, an overhead or "top" view of the "toploader" would help visually so that the buyer could get a better idea that a certain card would fit. Actual "mm" size is good, but the added view would be very helpful especially when trying to figure out if a thicker card, such as a jersey or patch card, would fit.

Item description from the seller

Unmatched Protection: These trading card sleeves are renowned for setting the standard in card protection. Safeguard your collection from wear, scratches, and other potential damages. These card toploaders provide top-of-the-line card protection.
Designed for Security: Our toploaders strike the perfect balance, being less flexible than semi-rigid holders and more flexible than magnetic card holders. This ensures your cards remain safe even if accidentally dropped.
Dimensions and Clarity: Each toploader is standard-sized with outer dimensions of 3x4 inches, accommodating items slightly smaller. The sleeves are clear with a slight blue tinge, allowing every detail of your card to shine through.
Multi-Purpose Use: Utilize these trading card top loaders to protect, store, or proudly display your cards. The crystal-clear clarity with a subtle blue tinge ensures that your cards' details are showcased with perfection.

2. Great value and product
3. My son loves collecting baseball cards and will only use this brand. He uses the sturdier ones for special cards and the thinner sleeves for the ones he stores in boxes.

Perfect!!

These are perfect, wouldn't even consider buying another brand. I use these specifically to display ACEO/ATC cards, and I mount them in the wall with small command strips. Minimal glare. Several of my friends also use these for their magic cards.

Great value with this product.

In my opinion these toploaders are the same quality as the standard toploaders BCW sells. Just with a little more buffing. I've only been 1/4 of the way through the case and have had multiple cracked or chipped (not so PREMIUM) toploaders. On the value side it is a good deal.

Top loaders are in good condition, however there seems to be alot of plastic shavings inside the loaders and could potentially ruin sports cards. But, they are still a good buy. Thankst

Top Loader

Top loaders are in good condition, however there seems to be alot of plastic shavings inside the loaders and could potentially ruin sports cards. But, they are still a good buy. Thanks!

Wheres the hanging bit?

These used to come with a piece on the back so you could hang it on a wall if you wanted to. Now, they got rid of it. Cheezy move. What do you do with them now, stand it in a corner?

TOP FAVORABLE REVIEW

Perfect!

These are perfect, wouldn't even consider buying another brand. I use these specifically to display ACEO/ATC cards, and I mount them in the wall with small command strips. Minimal glare. Several of my friends also use these for their magic cards.

Great value with this product.

In my opinion these toploaders are the same quality as the standard toploaders BCW sells. Just with a little more buffing. I've only been 1/4 of the way through the case and have had multiple cracked or chipped (not so PREMIUM) toploaders. On the value side it is a good deal.
